

Why is 360 Transcription Rapidly Growing in Popularity Among Healthcare Providers?

360 takes the time to get to know your business and workflow demands. We customize the dictation/transcription process using proven methods that will meet your needs and exceed all expectations. 360 and WebChartMD can replace your current Dictaphone or Lanier system and save you expensive annual fees. You receive so much more and pay less!

360 Transcription gives you all features listed below for one low per-line rate. There are no hidden costs and no contracts to sign!

- Complete setup and training.
- Unlimited users; no licensing fees or license required.
- Phone-in dictation system (if required).
- Designated Account Manager based on your medical specialty who will give you the one-on-one attention you deserve.
- A team of certified medical transcriptionists who are also language specialists and will transcribe your documents with perfect sentence structure, grammar and punctuation every time.

"Working with 360 Transcription and WebChartMD has saved us thousands of dollars each year. We were able to easily transition from our Dictaphone System to WebChartMD. We no longer pay very expensive yearly fees. Transitioning to 360 Transcription was the best decision we've made, and we couldn't be happier."

— E. Sasser, Practice Manager

"We thought our current dictation system was our only choice until we saw what 360 Transcription offered. After watching the demonstration, we felt it was 'too good to be true'. We are very pleased with our decision to switch to 360 Transcription. They helped us decrease our transcription expenses and save our staff valuable time."

— C. Angell, RN, BSN, MSN

- Designated Quality Review Specialist assigned to your account to guarantee document quality of 99.5% achieved from our stringent quality review process.
- Guaranteed turnaround of 4 hours or less due to our 24/7 staffing. Stats are returned in 2 to 4 hours at no extra charge.
- Auto-faxing (fax line charge included) and e-signature of documents.
- Options to edit, print, auto-fax, e-sign, and more from virtually any internet accessible computer.
- Unlimited use of our IT support via phone, e-mail, or IM.

Managing Your Dictation and Transcription Process Has Never Been Easier!

Step 1: Record Dictation.

360 Transcription offers an easy-to-use web-based tool for managing your dictation and transcription workflow. WebChartMD is the first web-based system that puts you in complete control of your process, from managing your voice files, viewing, printing, faxing, and completing your documents. Your Care Providers are able to e-sign their documents with just the click of a mouse! See for yourself why our platform is being called the easiest to use and most integrated system in the industry.

Step 2: Manage Your Documents Online.

Open documents in Microsoft Word®.

Print documents individually or in batches.

FAX documents with the push of a button.

Search for documents through entire archive.

Live chat to our help desk for technical support.

Play corresponding audio file.
